

PENNIES FOR EDUCATION AND HEALTH
AHMEDABAD

ANNUAL REPORT 2023

Schools Supported

& many more

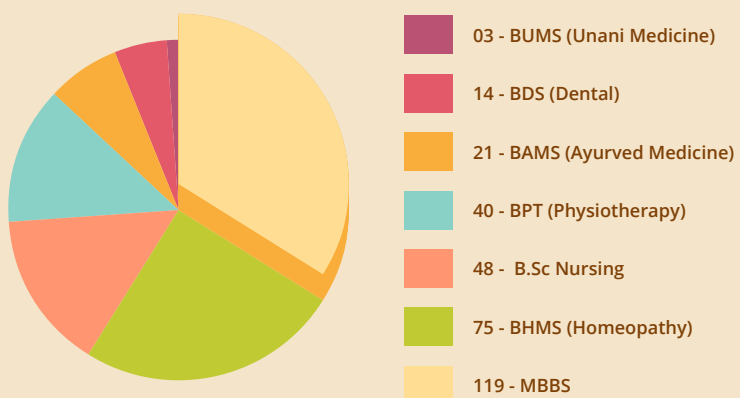

About Us:

Pennies for Education and Health (PEH), an NGO is striving to send ripples of hope by supporting the less fortunate children in India. PEH was established in 2003 in Ahmedabad by a group of family members and like-minded people who wanted to make serious contributions to society. PEH has been working on the most sensitive issues of society like education for children, empowerment of women, and health care. PEH provides education to the most vulnerable and deserving children via a donor-sponsorship program. The program extends to all children irrespective of caste, creed, faith, gender or ethnicity.

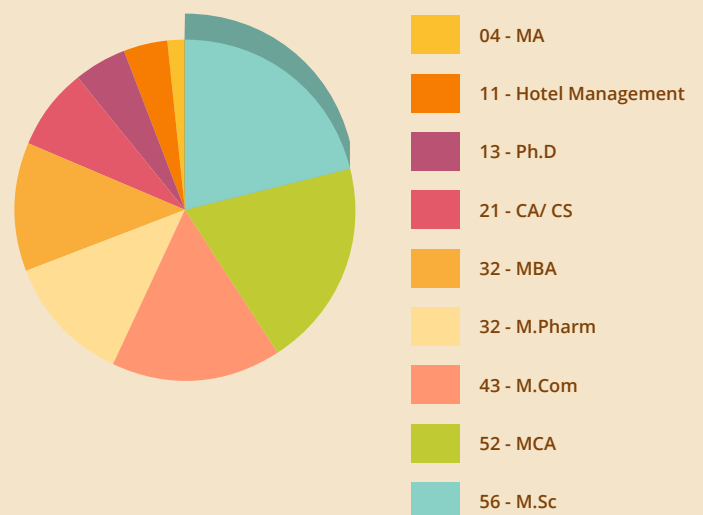

Apart from this, PEH works actively towards supporting those facing health issues or disabilities. Blind People's Association (BPA) is one such organisation where PEH extends its kind hands to support 18 children facing numerous physical disabilities. Besides, PEH has also funded medical equipments and machines to various healthcare and hospitals. PEH envisions to bring a positive change by assisting those in need of funds for educational and medical purpose.
